

Attachment 1 – Coalition Needs Survey

Coalition Needs Survey

Answer the following questions as you begin looking at targeted recruitment strategies for your coalition

- Look at the coalition calendar, what events or activities are coming up that might require the need of specific partners?
- What events or activities does the coalition want to accomplish but may be lacking support in order to complete?
- Are there board member roles unfilled at this time?
- Do you have potential partners who have expressed interest/provided support to the coalition before but are not regularly involved? *Ex: a pharmacy who has provided a location for a drug back event but their business isn't involved otherwise with the coalition.*
- What financial needs do you have? *Ex: money for lock boxes or other specific prevention items, supplies for your office, etc.*
- Who do current members know or have connections with? *Ex: what church do they go to? are their kids involved in different sports teams, clubs or activities?*
